

Descriptive Stats, Normality Tests

February 6, 2024

1 Ketamine VR5 Stats, Plots - COLOCALIZED DATA ONLY

Jonathan Ramos 2/6/2024 Plotting data and running normality tests is annoying in prism. We have 28 stain type combinations to consider as well which makes this process unnecessarily very tedious. In this notebook I'll just quickly do some exploratory analyses of the normalized adjusted mean-background data we generated in our previous notbook.

In particular, in this notebook I plan to focus on: - generating histograms - generating QQ plots - running some normalit tests (probably just Shapiro-Wilk)

```
[1]: import glob
import numpy as np
import pandas as pd
import seaborn as sns
import matplotlib.pyplot as plt
from statsmodels.graphics.gofplots import qqplot
from scipy.stats import shapiro
from scipy.stats import lognorm

plt.rcParams.update({'figure.max_open_warning': 0})
```

```
